

SAHPRA Test Documentation

Version Information:

Version: V1.5.10

Version Group: Main Release

Category: Patch Release

Description: General patch updates

Ticket Information:

Ticket ID: 45312552

Title: [Variations Pricing Updates] - Updating the 3,2,1 group pricing for Variations

Ticket Created: 2025-08-05 10:47:27

Testing Information:

Environment: Development

Test Types: Functional, Integration, UI/UX

Tester Information:

Tester: Louis-Willem van Niekerk

Date: 2025-11-17 17:35:02

Test Description:

Tested to see if variations code pricing changes are made as requested by the new guidelines, bundling pricing for IA codes in bundles of 3, and IB codes in bundles of 2, keeping type II codes priced per code per application number selected for a variation. This is primarily applicable to grouped variations. The example used here is 4 selected strengths, 4 IA codes, 3 IB codes, and two II codes, creating two bundles per code group for each application number, meaning 24 payment entries, 6 entries per strength

Feature Implementation:

The new feature has been fully implemented and works as expected.

Evidence:

Title: Codes selected for a grouped Clinical Variation
