

SAHPRA Test Documentation

Version Information:

Version: V1.7.5

Version Group: Main Release

Category: Feature Release

Description: Introduction of new capabilities and features that enhance user experience and system functionality. Focuses on value addition.

Ticket Information:

Ticket ID: 46212739

Title: Build in guardrails to not accept search text as values in the application creation process and sequence creation

Ticket Created: 2025-11-26 08:18:28

Testing Information:

Environment: Development

Test Types: Functional, Validation

Tester Information:

Tester: Louis-Willem van Niekerk

Date: 2025-11-27 11:32:03

Test Description:

Tested to see if validation rules were implemented to not allow users to enter free text in the sequences contact fields, related sequence field, and the sequence type field. Only dropdown selections are allowed

Feature Implementation:

The new feature has been fully implemented and works as expected.

Evidence:***Title: Fields before validation implementation***

The screenshot shows a web application interface with a modal titled "Create a Sequence". The modal contains the following fields and controls:

- Sequence Description:** A text input field containing "texttexttext".
- Sequence Number:** A text input field containing "0004".
- Sequence Type:** A dropdown menu with "text" selected.
- Related Sequence Number:** A text input field containing "text".
- Contact Information:** A section with "User Name" and "Type" dropdown menus, both containing "text".
- Buttons:** "Cancel" and "Next" buttons at the bottom.

The background shows a blurred view of the application's main content area, including a table with columns like "NUMBER", "SUBMISSION TYPE", "SEQUENCE NUMBER", and "RELATED SEQUENCE".

Title: Fields after validation rules where implemented

The screenshot shows the same "Create a Sequence" modal form, but with validation rules implemented. The following fields are highlighted with red borders and error messages:

- Sequence Type:** Highlighted with a red border. The dropdown menu shows "text" selected. Below the field, a red error message reads: "Please select an item from the list".
- Related Sequence Number:** Highlighted with a red border. Below the field, a red error message reads: "This field is required".

The "Next" button is still visible at the bottom of the modal. The background interface remains the same as in the previous screenshot.
